Scotland Health Care System and Learning for Life™ are thrilled to announce a new Health Care Exploring Post, a program designed to provide high school students with immersive career experiences in the healthcare industry. The Scotland Health Care Explorer Post will meet once a month, and will feature interactive programs aimed to expose the Explorers to as many careers within healthcare as possible. Additionally, this program is youth-led, which means the Explorers will get to chart their own path through the health service industry. Participation in the program requires parental consent and a \$27.00 annual registration fee.
